

# ANTI LAITANCE AND CEMENT RESIDUE CLEANER

## PAVING BLOCKS - SLABS - TILES

### INTERIOR-EXTERIOR

#### TECHNICAL DEFINITION.

ANTI LAITANCE cleans cement residues after jointing work. Ready-to-use product, without dilution.

#### PROPERTIES.

Thanks to its scouring action, the cleaner removes superficial laitance (cement residue):

- On paving blocks or slabs to clean polymer joints.
- On floor tiles, to clean the jointing mortar.

Anti-laitance also removes algal bloom.

#### CHARACTERISTICS.

- Ready-to-use colourless liquid.
- Low odour.
- pH <1.

#### PACKAGING.

1 and 5 litre cans.

#### STORAGE.

Storage temperature between 0 and 40°C, away from frost and high temperatures.

#### ADVANTAGES

- Ready-to-use.
- 2 in 1: moss killer and neutral water repellent.

#### APPLICATION TIP

Work in 5 m<sup>2</sup> stages.

Do not allow the product to dry on the material.

#### APPLICATION

##### PRECAUTIONS FOR USE.

Corrosive product, causes burns. Observe the precautions for use as well as the safety phrases shown on the packaging. It is essential to read the safety data sheet. The product safety data sheets are available on the quickFDS website.

Keep out of reach of children. Do not eat, drink or smoke during use. Avoid contact with skin and eyes. In case of contact with eyes, wash immediately with plenty of water and consult a specialist. After contact with skin, wash immediately and thoroughly with soap and water. Wear protection for the eyes/face. In case of an accident or feeling ill consult a doctor immediately.

Product labelled as hazardous. Contains citric acid. Refer to the safety label on the packaging. Observe the precautions for use and the safety advice. Safety data sheet available at [www.quickfds.com](http://www.quickfds.com), read before use.

##### COVERAGE.

- Tiles: 1 litre for 10 m<sup>2</sup>.
- Blocks/slabs: 1 litre for 2 m<sup>2</sup>.

##### APPLICATION.

- **CEMENT RESIDUE ON TILING**  
Spray the product on the parts to be cleaned.  
Leave for 5 minutes.  
Rinse with water.
- **CEMENT RESIDUE ON BLOCKS/SLABS**  
Moisten the blocks and slabs to saturation point using a garden hose.  
Spray the product on the parts to be cleaned and leave for 5 minutes.  
Brush with a stiff broom.  
Rinse with water and allow to dry.  
Repeat the operation if necessary.
- **ALGAL BLOOM**  
Spray the product over the entire surface.  
Brush with a stiff broom and rinse generously.  
Repeat the operation if necessary.  
Warning The product may change the colour of the cleaned surfaces.
