

**] PRODUCT DESCRIPTION & TECHNICAL SPECIFICATIONS**

**Sealing film in a self-adhesive roll with peelable protector with excellent adhesion to all materials, even at low temperature.**  
**Easy to use even in a small space. Allows a perfectly sealed junction between the vapour barrier and the wall. SEMIN E coating adheres to this tape to create a completely waterproof connection.**

<b>Trade name</b>	Product name	Reinforced tape 30 m
<b>Product dimensions</b>	Height (mm)	1
	Width (in mm)	150
	Length (mm)	1500
	Length (in m)	15
	Thickness (mm)	1
	Weight (kg)	
<b>The product</b>	Type of film/colour	Non-woven Polypropylene/White
	Adhesive Quality/Colour	Butyl adhesive/grey
	Standard thickness (mm)	1
	Tensile strength	MD>100N/50mm CD>100N/50mm
	Shear elongation	MD>70% CD>70%
	% of solid	100%
	Peeling strength at 180°	90N/50mm
	Probe tack	8.0N
	Vertical creep (mm)	0
	Temperature of application	0°c/+40°c
	Service temperature	
<b>Install information :</b>	Unit pack : type	Box
	Unit pack : height (cm)	26.5
	Unit pack : width (cm)	41
	Unit pack : depth (cm)	41
	Unit pack : weight (kg)	
	Number of products / parcels (items)	4

**] ADVANTAGES**

- Very great ease of use and installation
- Applicable cold
- Excellent adhesion at low temperatures
- Perfectly waterproof and self-merging
- Excellent thermal stability
- Easy peel
- Does not migrate
- Solvent-free

**] REFERENCES TO TECHNICAL DOCUMENTS**

- Customs nomenclature : 32149000  
EN 12311-1 / ASTM D1000 / ASTM D2979 / ISO7390

**] REFERENCES & PACKAGINGS**

- Product reference : A06197
- Barcode : 3585501061974
- Packaging : 4 rolls per carton.  
36 box per pallet.

**DO YOU KNOW THE ASSOCIATED SEMIN PRODUCTS ?**

- Vapour barrier: the sealing connection tape allows a perfectly sealed junction to be made between the vapour barrier and the wall, and particular places.
- SEMIN E : SEMIN E coating adheres to this tape to create a completely waterproof connection.

SEALING CONNECTION TAPE

**1 AREA OF APPLICATION**

Sealed junction to be made between the vapour barrier and the wall, and particular places.

**1 STORAGE**

The product must be stored in its original unopened packaging in a dry place between 5 and 40°C. It is recommended to use the product within 12 months of its date of manufacture.

**1 SUITABLE SUBSTRATES**

Excellent adhesion to materials such as: concrete, plaster plate, glass, steel, plastic, ceramic, wood..

**1 PREPARATION OF THE SURFACE**

The tape must be applied to a clean, dry, smooth and dust-free surface.

Between 0 and 5°C it is advisable to check that there is no condensation or frost on the surface.

**1 INSTRUCTIONS FOR USE**

Remove the peelable protection covering the adhesive side and place the tape between the vapour barrier and the wall.
